

Understanding Payroll Activity 7

Directions: On the question and answer page, please write thoughts/answers in COMPLETE sentences. Math calculations must be shown to receive credit. Remember, you are receiving a grade for this assignment.

7. Payroll Taxes – APRIL 15th!!

Maybe you've heard your parents talk about April 15th or getting their tax returns completed on time. When you receive a W-2 from your employer, you are in the game, too! You may be required to file a tax return depending on your age, your student status, and the amount of money you made during the year.

April 15th is the day that income tax returns are due. Typically, you file two income tax returns: one for the federal government (USA) and one for your state government (Georgia).

In the last lesson, Activity 6, you learned about the Form W-2 and how to read the amount of your income and income taxes that were reported to the government. If you are a full-time student and are claimed as a dependent on your parent's tax return, you should read the requirements for filing your own tax returns. You might be entitled to a refund of federal and/or state income taxes you have paid in.

If you determine that you should file tax returns, you should always prepare your federal return first. Even if the amount of a refund is small, the forms are free to print from the IRS and the Georgia Department of Revenue websites, stamps are cheap, and you can get YOUR money back!

Go to page 2

Forms we fill out and 'file' are called 'tax returns'. To file your return means that you send it to the appropriate US or GA office. Open the two forms below to answer the questions for this activity.
